Natural gas vehicle systems for Ford Eco-Ready Fleets™

Ship-Thru Efficiency

Lower Cost

Best Warranty

QVM Quality

COMPREHENSIVE PRODUCT LINE-UP

Our industry-leading CNG vehicle systems are available on the most popular Ford fleet vehicles, now including the Ford F-150. Fleets operating multiple vehicle models can streamline their supply chain by ordering all their alternative fuel vehicle systems from a single Qualified Vehicle Modifier (QVM) manufacturer.

CERTIFIED SUSTAINABILITY

For 60+ years, Landi Renzo has been providing real and effective solutions for the challenges of environmental sustainability through our alternative fuel vehicle systems. Our portfolio of emissions certified products is one of the largest in the industry.

LOWER COST CNG SYSTEMS

With more than 1 million alternative fuel systems sold globally each year, our volume and manufacturing efficiency makes it possible to offer your fleet customers a high quality alternative fuel system at for the most competitive price.

STREAMLINED SHIP-THRU ORDERS

Using our Ford Ship-Thru codes, fleet customers can specify a CNG system at the same time they order new vehicles – no extra steps or paperwork. When the base vehicle is complete, it's transported to one of our strategically located manufacturing and installation facilities located near the Ford manufacturing plant where the Landi Renzo CNG system is installed, calibrated, and validated. Completed vehicles are put back into the Ford Ship-Thru system for delivery to your customer's Ford dealer.

SIMPLIFIED INVOICING

There are no hidden fees, dealer invoice charges, extra transportation, or shipping costs because vehicles stay within the Ford distribution system from manufacturing to upfitting and final delivery. The CNG system and optional equipment is added to the total vehicle price, so your fleet customers receive one complete invoice.

QVM QUALITY AND RELIABILITY

Landi Renzo USA is a Ford QVM gaseous fuel system developer and installer and meets all the stringent requirements of the QVM program. As Manufacturer of Record for our CNG vehicle systems, we are accountable for ensuring vehicles equipped with our systems meet FMVSS safety requirements. Plus, the vehicle powertrain and Ford warranty remain intact, and carries the industry's leading warranty (3 Years/50,000 Miles).

Better Strategy. Better Solution.

We simplify the logistics for ordering and taking delivery of natural gas-powered Ford fleet vehicles with one code Ship-Thru, one invoice, and one best-in-class warranty.

COMPREHENSIVE LINE-UP OF ECO-READY FLEET™ VEHICLES

Easy To Order / Use our Ford Ship-Thru code to add our CNG system at the time or order.

Best CNG Warranty / Our CNG vehicle systems are backed by a 3 Years / 50,000 Miles warranty.

Ford OEM Warranty / The original Ford warranty remains intact.

Ford Financing Eligible / Ford Commercial Lending Services offers competitive options.
